Please note: If you do not see any email with the sender address noReply-kdf@goethe.de in your inbox, it may be because of the following:

- The activation email comes from outside the scope of your email programme and email provider, from an unknown sender, and contains standardized content. Mails with these features are often not sent directly. Check your 'spam' or 'unknown' mailbox (or equivalent thereof), as our activation email may have gone there instead.
- If this is not the case, you may have made a mistake when entering your email address. Go back to the registration page on MeinGoethe.de. If you attempt to log in and receive a message that the address has already been registered, the problem lies elsewhere. If that is the case, please inform the language office or your instructor.
- The student number/customer number/ registration number starting with 006..... is a unique identification number created in the systems of Goethe-Institute worldwide.
